**SUBSCRIBER ACKNOWLEDGEMENT REPORT (OCTOBER 25, 2005) OF
PC CONNECTION, INC.**

PC Connection, Inc. ("PCC") submits this Subscriber Acknowledgment Report pursuant to the Public Notice issued by the Enforcement Bureau on September 27, 2005 (DA 05-2530) in WC Docket No. 05-196. This Report updates and supplements the Subscriber Acknowledgement Reports filed by PCC on August 10, 2005, September 1, 2005, and September 22, 2005.

As described in its previous Subscriber Acknowledgement Reports, PCC has used various methods to inform its existing subscribers of the 911/E911 limitations of the "IP Connection" service and to obtain subscriber acknowledgements of those limitations. These included a series of direct mail and e-mail communications in which PCC requested that subscribers return an acknowledgement form by fax or by return email to avoid a suspension of service. PCC also advised subscribers of the relevant limitations in its subscriber agreement and on its website.

As of this filing, PCC has received affirmative acknowledgements from approximately 65% of its subscribers. PCC does not expect to receive a substantial number of additional

acknowledgements before October 31, 2005. PCC does not know why the remaining subscribers failed to return their acknowledgements as requested. It is possible that some subscribers to the service no longer actively use the service, or that they use it so rarely that they are not concerned about having their service suspended. In any event, PCC is satisfied that it has made diligent efforts to reach all subscribers and to inform them of the 911/E911 limitations of the service.

Respectfully submitted,

/s/ Bradford M. Berry

William R. Richardson, Jr.
